FIELD SERVICE
AUMUNDGROUP

**READY WHEN
YOU NEED US.
ANY PLACE.
ANY TIME.**

AUMUNDGROUP

WHY FULL SERVICE MAKES THE DIFFERENCE

AUMUND Group Field Service safeguards your operation with complete maintenance, shutdown, installation and commissioning support for bulk material handling equipment worldwide. Combining mechanical, structural and electrical expertise under one point of contact, we deliver reliable full-service solutions that minimise downtime, reduce project risks and keep your operations running.

**MORE THAN
40+**

FIELD SERVICE ENGINEERS

In-house engineering expertise for complex field service projects worldwide.

**UP TO
120+**

CERTIFIED SPECIALISTS

Mechanics, electricians and welding specialists available worldwide for large-scale projects and seasonal peaks.

**MORE THAN
250+**

PROJECTS WORLDWIDE EVERY YEAR

Proven field experience across industries and regions.

**ISO
SAFETY FIRST**

ISO 45001 AND SCC**

Internationally recognised standards for safe and reliable project execution.

FROM ON SITE ASSESSMENT TO COMMISSIONING

Every project starts with a direct on-site assessment and a clear understanding of your operational requirements. We develop a tailored concept, define resource planning and coordinate a schedule that fits seamlessly into your maintenance or shutdown window.

By combining mechanical, structural and electrical expertise under one point of contact, we reduce coordination effort, minimise project risks and help safeguard reliable operations throughout every project phase.

ON SITE ASSESSMENT

Direct evaluation of the technical situation and project requirements

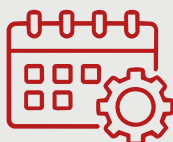

CONCEPT & RESOURCE PLANNING

Scope, schedule, personnel planning and cost framework

RISK REDUCTION & DOCUMENTATION

Reliable start-up support, documented execution and project sign-off

EXECUTION & RESPONSIBILITY

Mechanical, structural and electrical execution under one point of contact

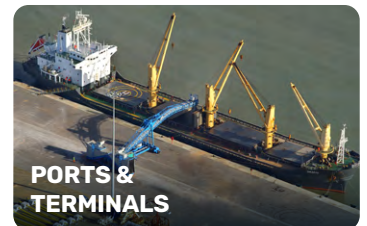

COMPLETE SUPPORT FOR BULK MATERIAL HANDLING EQUIPMENT

Supporting bulk material handling industries with preventive maintenance, shutdown support, installations, modernisations and emergency response, helping maximise plant availability.

OUR SERVICES

- ✓ Mechanical, structural and electrical works
- ✓ Major replacements, parts assembly and dismantling
- ✓ Conversions, modernisations & commissioning
- ✓ Overhauls, repairs and spare parts replacement
- ✓ Fault analysis and action planning
- ✓ Training & technical support
- ✓ Emergency response with equipment & special tools

OUR INDUSTRIES

EMERGENCY RESPONSE

WHEN OPERATIONS STOP, WE TAKE OVER.

When every hour counts, AUMUND Group Field Service rapidly mobilises certified specialists, equipment and special tools. Backed by the AUMUND Group expert network, we minimise downtime and get your operation back on track as quickly as possible.

TRAINING & SUPPORT

Training of operating personnel and continued technical support

CERTIFIED SPECIALISTS

EQUIPMENT & SPECIAL TOOLS

GLOBAL EXPERT NETWORK

FAST MOBILISATION 24/7

AUMUNDGROUP SPANNING THE GLOBE

GLOBAL PRESENCE

The AUMUND Group Field Service supports industries that depend on bulk material handling, including cement, steel, minerals, chemicals, energy, recycling and ports. Thanks to the global presence of the AUMUND Group, our Field Service team has access to a worldwide network of experts and can provide technically trained personnel quickly, no matter where your project is located.

LIFECYCLE SUPPORT

The AUMUND Group operates service centres and warehouses in strategic industrial regions worldwide. Dedicated teams support inspections, maintenance, modernisation and upgrades, including PREMAS predictive maintenance and on site consulting.
