

YOUR PARTNER FOR WORLDWIDE LOGISTICS

WHY CHOOSE AUMUND LOGISTIC

EXPERTS IN INTERNATIONAL SHIPPING & FORWARDING SERVICES

AUMUND Logistic is a licensed Freight Forwarder and terminal operator based in Rheinberg, close to Duisburg and Düsseldorf. We take care of your logistics so you can focus on what matters most. By combining our proven expertise in international forwarding with a strong focus on complex logistics requirements, we deliver integrated transport solutions from a single source.

We are specialized in oversized and demanding shipments, providing dedicated project coordination, reliable service, and precise execution through structured processes to ensure predictable outcomes and efficient handling across the entire transport chain.

AULCON TRACKING SYSTEM

To increase transparency and planning reliability, AUMUND Logistic founded AULCON for optimized documentation and freight online tracking.

Customers can monitor the status and location of their shipments in real time, follow every transport milestone and receive up-to-date information throughout the entire shipping process. This enables better coordination, improved visibility and more efficient project logistics.

YOUR BENEFITS AT A GLANCE

TAILORED SOLUTIONS

Each project is designed and executed according to specific technical and logistical requirements.

INDUSTRIAL EXPERTISE

Deep understanding of machinery and industrial processes ensures precise logistics planning.

GLOBAL EXECUTION

Established partnerships enable consistent and efficient transport worldwide.

FULL TRANSPARENCY

Clear processes, defined timelines and complete visibility across the entire supply chain.

YOUR HUB IN THE LOWER RHINE REGION

Strategically located in the Lower Rhine region, close to the major logistic hub of Duisburg and Düsseldorf, our terminal offers an efficient and cost-competitive alternative to congested freight centres. Whether you are managing imports, exports or complex project logistics across Europe, AUMUND Logistic is your reliable partner.

For international companies using Europe as a base for their operations, we provide comprehensive on-site support. We coordinate with your local partners, suppliers and service providers on your behalf – in the European time zone and local languages.

OUR SERVICES – SPECIALIZED FOR MACHINERY INDUSTRIES

IMPORT DISTRIBUTION & EXPORT CONSOLIDATION

We manage inbound cargo and consolidate project components – from individual items to complete export units ready for overseas shipment.

CONTAINER STUFFING & SPECIAL CARGO

Container stuffing of industrial goods and over-sized cargo. Our terminal is equipped to handle even the most demanding cargoes.

CUSTOM PACKAGING SOLUTIONS

- Tailor-made packaging
- HPE-compliant packaging
- Sustainable ISPM 15 certified wooden packaging
- Corrosion protection for high-value machinery
- Procurement of all packaging materials
- All services performed directly at our terminal

CONTAINER TRADING

We supply containers of all sizes and qualities, including standard, high-cube, open-top and special equipment. Purchase and short-term availability.

INLAND WATERWAY

Direct access to the nearby heavy-load terminal connects your cargo to the Rhine inland waterway network, a cost-efficient and low-emission transport solution for heavy and oversized cargo.

AIR FREIGHT

Fast connections via the airports of Düsseldorf, Frankfurt, Amsterdam, Luxembourg. Ideal for urgent and high-value shipments.

**WE LISTEN TO YOU.
WE SPEAK YOUR LANGUAGE.
WE CONVEY QUALITY.**

GLOBAL NETWORK & PROJECT LOGISTICS

AUMUND Logistic delivers multimodal transport solutions across land, air and ocean, supported by end-to-end supply chain management. Through process optimization, logistics planning, route and risk analysis, we develop tailored solutions that ensure reliable execution and efficient handling of complex industrial logistics projects worldwide.
